CANDIDATURE A ENVOYER AVANT LE : Dès que possible

ORGANISME: Team for Youth Association (www.t4uth.ro)

TITRE DU PROJET : ReAnimate, Animation auprès d'enfants et jeunes en difficulté

The main activities of the project ReAnimate will be connected to clinic and social animation. The volunteers will work with following categories: the group of beneficiaries contains of children that are hospitalized with light illnesses (aged 3 -15) and children and youngsters living in foster homes (aged 13 -18). For hospitalized children the main need is to get a boost of happiness and good mood through animation and games, for having better chances of getting over their illness and to overcome the trauma of spending time in hospital. For the youngsters and children in orphanage the main aim is to socialize with foreigners, improving communication skills and developing friendly and non-violent attitudes. The other side of project is devoted to volunteers themselves, by improving their language competences, to gain experience in working with vulnerable categories of children and youngsters, to develop competences in animation, to learn how to work in a team, more specifically in an international team, to get experience in working in multicultural environment.

The main responsibilities of the volunteers will be:

-To research for games and animation activities to implement with children in the hospital,

foster homes and kindergarten;

-To organize animation activities, 4 days per week, with the children forming the target groups of this project;

-To take part in Intercultural presentations as well as to make in presentations in schools

Any idea for a **personal project** that is connected with the objectives will be encouraged and supported by the hosting organization.

Low level of English is not a problem for this project!
